1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Abstract:

Line 1, delete "The invention relates to" and insert --Described is--

Line 8, delete "The invention further relates to a" insert --A--

Line 10, after "using the mixing device" insert --is further described--

2. The following is an examiner's statement of reasons for allowance:

The invention relates to a mixing device and the mixing device used within a partial oxidation reactor wherein the mixing device mixes a first gaseous stream comprising a fuel and a second gaseous stream comprising an oxidant wherein the mixing device includes a cylindrical mixing chamber having a wall and a central longitudinal axis, a first injector for injecting the first stream tangentially along an inner surface of the wall and a second injector for injecting the second stream axially along the central longitudinal axis wherein the diameter of the mixing a chamber, and dimension and locations of the first injector and second injector are such that during normal operation, the injected first stream forms a wall jet around the injected second stream without impinging upon the injected second stream. The invention as claimed provides very high mixing rates at a high flow stability which is particularly suitable for mixing a hydrocarbonaceous fuel and oxygen containing gas prior to partial oxidation of

the mixed gases which has not been taught nor fairly suggested either singularly or in combination by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
